First Aid + CPR Instructors

St. John Ambulance First Aid & CPR Instructors are part-time contractors who enjoy teaching others how to be confident first aid responders. Most Instructors have part-time or full-time employment elsewhere and supplement their income with occasional teaching contracts.

Now Recruiting for Caledon and Dufferin County

Candidates with availability that includes occasional weekdays, weekends and evenings are ideal.

St. John Ambulance selects instructors with a high degree of knowledge and skills and with a personality and training style that ensures the first aid classroom experience for the participant is enjoyable. Our experience has shown that success as a St. John Ambulance Instructor is increased for people who have the following characteristics or experience in their background:

- Teaching personality - enjoys people, understands how to organize and relate information in terms that suits the group they are teaching
- Comfortable speaking in front of groups
- Background in a health care, adult education, occupational health & safety and/or an emergency service related field
- Sense of humour
- Flexible

The St. John Ambulance Instructor Development program is an excellent one. You must apply to be accepted into it. A St. John Ambulance Standard First Aid + CPR level HCP certificate in current standing is required as a pre-requisite. The Instructor course is 40 hours long and runs over 5 days or 2 weekends (2 Friday evenings, 2 Saturdays and 2 Sundays). Courses are offered throughout the year at various St. John Ambulance branches throughout Ontario.

To apply to the Peel Branch, please send a resume to Dianne Rende, Executive Director at dianne.rende@on.sja.ca.
